

## Watch Teeth Whiten When You Remove the Film

All Statements Approved by High Dental Authorities

### Free

A Ten-Day Tube of Pepsodent to show you its effects. Send the coupon for it.

### Look in 10 Days

See how clean the teeth look—how they glisten. Then you will know what film removal means.

**Pepsodent**  
REG. U. S. PAT. OFF.

The New-Day Dentifrice

A Scientific Product. Sold by Druggists Everywhere.

### Film Destroys Teeth

This is to urge a ten-day test of a tooth paste which combats the film.  
High authorities have proved it. Five years of tests have placed it beyond question. Leading dentists everywhere are urging its adoption.  
Compare the results with your old methods, and let your own teeth decide.

That slimy film which you feel on your teeth causes most tooth troubles. Every modern dentist knows that. Dental science, for many years, has sought a way to end it.  
That film is what discolors, not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. So the major object in cleaning teeth is to keep them free from film.

Old-time methods fail to do that. Teeth still discolor, still decay, as millions of people know. The reason is that brushing does not end the film.  
The film is clinging. It gets between the teeth, enters crevices and stays. Day and night, month after month, it is a potential source of danger.

### Now a Way to End It

Science now has found a way to end it. Five years of tests have proved this. The way is now embodied in a dentifrice called Pepsodent. And we urge you to see what it does.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

But pepsin must be activated, and the usual method is an acid harmful to the teeth. So pepsin long seemed barred. But science has now found a harmless activating method. It is made use of in Pepsodent.

Now millions of teeth are daily cleaned as they never were before. Try the method ten days on yours.

Send this coupon for a 10-Day Tube. Use like any tooth paste. Note how clean your teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten as the fixed film disappears.

Watch the results for a few days. Read in our book how they come about. Then decide for yourself what tooth paste you and yours should use.  
Cut out the coupon now.

## DEMAND VOTE ON TREATY

### Democratic Leaders Want Roll Call on Rati- fication of Pact.

WASHINGTON, Nov. 6.—An immediate vote on the ratification of the treaty of Versailles without reservations was proposed in the senate late today by Senator Underwood, Democrat, Alabama, after Republican Leader Lodge had challenged the administration to make such a move. Senator Hitchcock of Nebraska, the administration leader, intervened before the question was put and a long argument ensued.

Senator Underwood's proposal followed discussion of parliamentary procedure which was attended by great confusion. Half a dozen senators frequently sought to speak at the same time and Vice President Marshall was kept busy banging his gavel for order.

Senator Hitchcock accepted the challenge of Senator Lodge and made a motion that the senate ratify the treaty without reservations. He then demanded a roll call.

Before proceeding to vote on Senator Hitchcock's proposal for unreserved ratification, the senate revived discussion on another proposal by Senator Hitchcock to report the treaty immediately from the committee of the whole in order to consider resolutions of ratification.

There was a wide difference of opinion as to what would be the status of the treaty should the resolution of ratification with reservations attached be defeated. Senator Underwood said he would vote against the resolution containing reservations and Senator Lodge warned that if the treaty were rejected with reservations attached, the delay that would follow would "be the delay of death."

## ENGINEER KILLED AND THREE MEN INJURED IN TERRIFIC EXPLOSION AT THE LOCAL GAS PLANT

Robert W. Long, 44 years of age, residing at 2761 Wall avenue, was instantly killed and three employees were injured in the explosion of a large gas meter at the plant of the Utah Power & Light company, at 4:20 o'clock yesterday afternoon.

The explosion partially wrecked the recently-built addition to the plant. About \$7,500 damage was done to buildings and equipment. The gas service of the city was disrupted from the time of the explosion until early this morning. The cause of the explosion has not been determined. The meter was a new one and had recently been installed.

### Shock Affects Men.

The injured men were Richard Anderson, Robert McElroy and William Wardleigh. They were taken to the Dee hospital where they were given medical attention. Wardleigh's condition today was such as to permit removal to his home. It is stated that the condition of Anderson and McElroy was not considered serious. Both were reported as recovering from the effects of the shock.

### Superintendent Escapes.

Alfred Bruerton, plant superintendent, had been conferring with A. P. Merrill, district manager of the company, near the building in which the

meter was housed. The latter had left the plant, about five minutes before, and Bruerton strated toward the building when the explosion occurred. He was within a few feet of the spot where hundreds of bricks fell and one brick whizzed past his head. Other employees near by narrowly escaped injury by flying debris. The east and west brick walls had large holes torn in them by the explosion and some of the roof beams were shaken loose.

Aid to the injured.  
As soon as possible after the explosion, Mr. Bruerton sent the injured men to the Dee hospital and removed the body of Mr. Long.

Mr. Bruerton said the explosion was that of a new gas meter which had recently been installed as part of the company's plan of enlargement. He added that he could not determine the cause of the accident.

Long Killed Instantly.  
Long, Bruerton said, was working in front of the meter and was instantly killed. The top of his head was crushed. The other men were at one side of the meter.

The meter is a large cylinder-shaped steel case which measures the amount of gas made in the new unit of the plant. It was in a new brick addition. The east and west walls had holes

about 12x10 feet torn in them by the force of the explosion. Large timbers were shattered into kindling wood.

### Curious Ones Gather.

According to Mr. Bruerton, there was not a loud report from the explosion. The concussion, however, was heavy and broke a large main near by. Machinery in the building was shaken loose and windows in near-by buildings were broken.

Within a short time after the explosion people from the near-by industrial plants began to gather. Deputy Sheriff Joseph Chadwick and Bert Crites also hastened to the plant and rendered assistance in removing the dead man and the injured.

### Victim Is Well Known.

Long was born in England September 27, 1875, the son of Belchard and Isabella Shipley Long. He came to America when 3 years of age and has resided in Ogden ever since. He is survived by his widow, Rachel Danks Long, and the following children: Maud, Robert, Jr., Mildred and Howard; his mother, three brothers and four sisters, all of Ogden.

He was a member of Woodmen of the World No. 74. He has been an employee of the gas plant for eight years.

The funeral services will be held Friday afternoon at 2 o'clock at the Second ward chapel, Bishop George E. Browning presiding. The body is at Larkin & Sons' undertaking parlors, and may be viewed Friday between 10 a. m. and 3 p. m. at the residence, 2761 Pacific avenue. Interment will be in the city cemetery. The Woodmen of the World ritual will be conducted at the grave.

Today only. Return showing of Nazimova in her biggest success, 'Eye for Eye' at Utah.

## THIEVES ENTER ROOM AND STEAL \$1950 AND A BOND

Thieves entered the rooms of Lazo J. Kunjich, 2073 Washington avenue last Tuesday evening and stole \$1950 in cash and a Liberty bond valued at \$100. At the time of the robbery, according to Kunjich, one of his friends was seen in the neighborhood of his room and the police are working on clues furnished by Kunjich.

The money is money that has been saved by Kunjich for a number of years and was stowed away in his room at the time of the robbery. Police in other departments of the state have been furnished with a description of the alleged thief.

Overcoat thieves continue to find victims throughout the city. Three overcoats were reported stolen to the police last night and efforts to stop the thieves is being made by the police. To date more than thirty overcoats have been stolen from various places in the city.

Romans improved the roads, but paid no attention to improving the vehicles on the highway.

The largest gold nugget ever found was discovered at Ballarat in 1858 and sold for \$50,000.

## ANOTHER EXAM. FOR CENSUS ENUMERATOR TO BE HELD

Fewer applicants for clerks in the operative bureau of census at Washington, D. C., than were expected, made applications for positions, according to a letter from Martin A. Morrison, president of the United States civil service commission.

There will be another examination for the position and instructions that all persons interested shall be notified, have been received.

Special attention is called to the fact that several thousand appointments will be made for the positions referred to and the entrance salaries will range from \$900 to \$1,020 a year for clerks and from \$900 to \$960 for operatives. Should services of appointees prove satisfactory, they will be given a bonus of \$20 per month, as provided by congress. Promotions will be reasonably rapid, it is stated.

The Thames river, only 220 miles long, has as large a traffic as any river in the world.

## Become Thin FREE BOOK

Safe, pleasant and easy for you. Valuable information in new book entitled "Reduce Weight Happily" mailed (plain wrapper) free by Korein Co., N. A. 69, Station F, New York City.

### HELENA, Ark., Nov. 6.

Negroes, trained in the rudiments of military tactics and placed in strategic positions against white posse, took part in the race uprisings at Hoop Spur in October, negro witnesses related today at the trial of Cornelius Morgan, negro, charged with night raiding in connection with the disturbances.

Organized into squads, the witnesses testified, the negroes were instructed in military duties by Frank Moore, negro service man, who was convicted this week of first degree murder. It was said that Morgan was one of a band of 20 negroes who went from the Lambrook plantation, a distance of eight miles, to take part in the disturbances at Hoop Spur.

## ACCOMPANIST WITH HENRI SCOTT IS FINE ONE

Henri Scott, who has been singing leading bass-baritone roles for two seasons at the Metropolitan Opera in New York, is a native of Philadelphia. Before he had attracted attention with his voice, his name was often on the sporting pages in connection with rowing matches; he was a well known figure in boating circles around Philadelphia, Baltimore and Annapolis several years ago, and for four successive years he held the championship in that section for single racing shells. Mr. Scott will be heard here on Friday evening at the Tabernacle. He is one of the few Metropolitan Opera stars who make extensive concert tours.

Students of piano music in Ogden will be interested to know that Mr. Henri Scott's accompanist will be Mr. Arthur Winter Smith of New South Wales. Mr. Smith is well known throughout the eastern part of this country and one of the most accomplished accompanists of the day.

## Operators Report More Coal Miners Working at Raton

ALBUQUERQUE, N. M., Nov. 6.—Coal operators in the Raton district today reported an increased number of miners at work following the arrival of 700 troops from Columbus, N. M., under command of Colonel George W. Biegler, yesterday. Five hundred of these troops are being held at Raton

and 200 have been sent to Dawson. In the Gallup district operators say the production has been increased 100 tons today. The Gallup-American mine, which was closed down at the outset of the strike and reopened yesterday today reported that it had 50 men at work. The normal number is 100. Other mines say their forces are about normal.

One hundred Indian wood choppers at a camp at Thoreau struck today in sympathy with the Gallup miners. They also demand an increase in wages.

Railroad officials in the state received instructions to distribute the coal which has been seized. It will be released to retail dealers who actually need it in conformity with priority rules.

SUSPEND ASSESSMENT WORK.  
WASHINGTON, Nov. 6.—The resolution suspending mining laws requiring annual assessment work on claims this year, was sent to President Wilson today for his approval. It exempts mine claimants in the United States, including Alaska, from spending at least \$100 in labor or material on each claim located, but not patented.

The first successful cable was laid in 1866 after three prior unsuccessful attempts.

The greater part of the fertile lands of Java are untitled because of scarcity of labor.
